

ISTANBUL KÜLTÜR UNIVERSITY

Wi-Fi Connection Guide for Android (Student)

Step 1 - Open Wi-Fi Settings

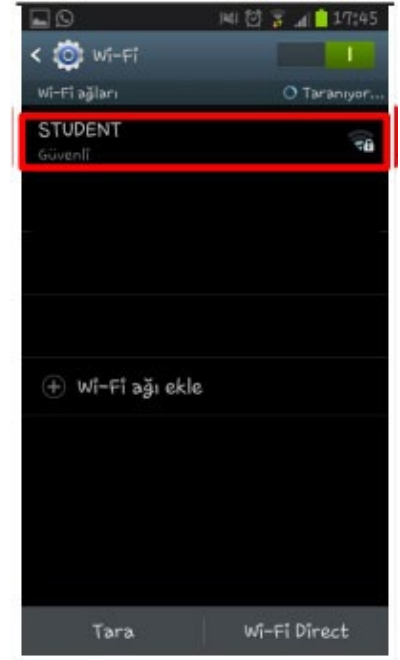

First, go to the Settings menu on your phone.

Step 2 - Select a Network

In the Wi-Fi menu, turn Wi-Fi on and view the list of available networks.

When Wi-Fi is on, select STUDENT from the “Choose a network” list.

Step 3 - Configuration and Password Procedures

After making the selection, the configuration screen will appear.

- EAP Method: PEAP
- Phase 2 Authentication: MSCHAPV2 – MSCHAPV3
- Identity: Enter your student number
- Anonymous Identity: Leave this field blank

Password: Enter your IKU UNIPASS password (the password you use for CATS, e-mail, logging into your computer, and SAP)

Press Connect to complete the connection.

The image shows two side-by-side screenshots of a mobile application interface for configuring a student connection. Both screens are titled 'STUDENT'. The left screen shows the 'EAP yöntemi' (EAP method) set to 'PEAP' and 'Faz 2 yetkilendirmesi' (Phase 2 authentication) set to 'MSCHAPV2'. The right screen shows the 'Kimlik' (Identity) field with a student number, the 'Şifre' (Password) field with a masked password, and the 'Bağlan' (Connect) button highlighted with a red box.
