

ISTANBUL KÜLTÜR UNIVERSITY

Windows 11 için Wi-Fi Connection Guide (Staff)

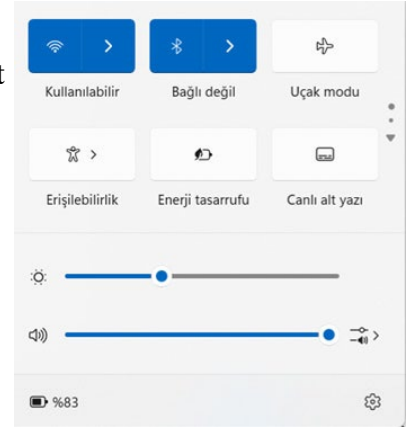

Step 1 - Open Wi-Fi Settings

Click the **Network / Sound / Battery** icons located in the bottom-right corner of the screen.

In the quick settings menu that appears, click the **Wi-Fi** icon.

If Wi-Fi is turned off, the icon will appear grey.

Click the Wi-Fi icon to activate it.

Step 2 - Select a Network

From the list that appears, select the Wi-Fi network you want to connect to.

Click the network and then press **Connect**.

Step 3 - Enter Credentials

On the screen that appears, enter your information:

Username: Your iku.edu.tr email address

Password: Your IKU UNIPASS password (the password you use for CATS, email, and SAP systems)
